Introduction

Project Acknowledgement

It is our utmost pleasure, as students, to be able to take an initiative for our learning experience and development with the eProject. We believe the eProject is a great opportunity for us to implement academic knowledge and accumulate real-life experience outside of the classroom. This is a website project that reflects the demands and functionality of today's nonstop-evolving digital world that allows us to:

- Practice problem solving skills through planning and structuring.
- Build a realistic, robust application.
- Utilize the available resources and tools to create our own applications.
- Single program to unified code leading to a complete application.
- Learn to implement concepts through a structured, phased manner.
- Enhance and acknowledge the skillset necessary.
- Tackle real life scenarios to produce viable solutions in creating more complicated and useful applications.
- Improve our collaboration and teamwork skills.

Project Objectives

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us JavaScript/Dreamweaver but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project. This project is meant for students like us who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

And get back eprojects@aptech.ac.in as the assigned schedule.

Synopsis

JADON Event Management is a leading event organization agency that assures to deliver our customers only the greatest quality of event services with ideal venues, essential equipment, facilities, and professional staff and technicians. In putting customer satisfaction as our utmost priority, JADON has been valued and trusted by thousands of customers, companies, and organizations. Whether it's a birthday party, wedding, meeting conference, or any types of event, it is our pleasure to offer you and your guests a pleasant experience with the best services.

Events are considered to be the single-most effective social networking and marketing channel. In today's digital world, in order to promote our image and become available to a wider range of customers, we feel the need to develop a website that presents all the information and imagery necessary for interested customers, as well as enables customer service interaction through online booking, contact details, and consultation service. This website is based on technologies that use HTML5, Javascript, Bootstrap, and Dreamweaver, AngularJS, which should be accessible on all popular browsers in the current trend including Safari, IE, Chrome, FireFox, etc.

Design Plan: JADON Event Management	Document Name: Problem Definition	SWD/Form No.01/PD/Ver1.0
Effective Date: 13/11/2020	Version 1.0	Page No: 7 of 38

PROBLEM DEFINITION

JADON Event Management Services in the city is famous for catering event organization services for numerous event categories including Wedding party and Anniversary, Birthday, Business conference, School Annual Ceremony, School Show and Fair, and so on. For each type of events, a variety of formats and themes, as well as appropriate pricing will be provided to satisfy customer interests and demands. In order to become available to a wider range of customers in today's digital world, we wish to develop this website that displays necessary details, event organization information, and the media access necessary for interested customers, which also enables online booking, contact details, and consultation service. The website is to be developed for the Windows Platform using HTML5, JavaScript and GeoLocation, and will be accessible for today's leading browsers including Chrome, IE, Firefox etc.

Requirement Specification:

The Website is to be created based on the following requirements.

- 1) The Home page should be designed stating some information about the event services and proper template must be designed.
- 2) Uniformity and Navigation must be made smooth throughout the website.
- 3) Different themes for each category along with the list of the task which they perform must be stated.
- 4) Display customer and press reviews, and past events details.
- 6) Gallery section must be included.

Design Plan: JADON Event Management	Document Name: Problem Definition	SWD/Form No.01/PD/Ver1.0
Effective Date: 13/11/2020	Version 1.0	Page No: 8 of 38

7) Our team Members.

8) About us.

9) The “Contact Us” page should have the Address of the Company and the mail address which when clicked will invoke the local mail client from where they can send an email. Address of the Company should be displayed using GeoLocation API (eg. GoogleMaps).

10) Feedback must be allowed to enter by the viewer.

11) Site map, Gallery, About us, Queries link, Contact us link must be added.

CUSTOMER REQUIREMENTS SPECIFICATIONS

With users:

➤ **Input**

- Users/Customers information and contact details for member registration and service booking.
- Select and confirm booking of interested services.
- Write and send feedback/review.
- Submit inquiries (if necessary) via Contact Us inquiry box.

➤ **Process**

- Check for valid information of customer registration and service booking.
- Search and browse interested event categories and details.
- Search and browse interested ideal venues.
- Search and browse interested concepts.
- Consult and check customer feedback/review by other customers.

➤ **Output**

	Prepared by (Student)	Approved by (Faculty)
	Project Group No: 01	LE THANH NHAN
Signature		
Date		

Design Plan: JADON Event Management	Document Name: Customer Requirements Specifications	SWD/Form No.02/CRS/Ver1.0
Effective Date: 13/11/2020	Version 1.0	Page No: 10 of 38

- Success/failure notification of member or booking registration.
- Success/failure notification of feedback/review submission.
- Success/failure notification of inquiry submission.
- Applicable event organization details and descriptions including venue, themes and concepts information, and costs of selected service.

	Prepared by (Student)	Approved by (Faculty)
	Project Group No: 01	LE THANH NHAN

Effective Date: 13/11/2020	Version 1.0	Page No: 11 of 38

With webmasters:

➤ **Input**

- Respond to customer feedback and inquiries.
- Check for news, organization details such as event categories, venues, concepts,... to keep website up-to-date with valid information.

➤ **Process**

- Update event categories, venues, concepts, images, videos, etc.
- Check feedback/review.
- Update and post beneficial feedbacks/review to website.
- Discard replied feedback.
- Update press review/news.

➤ **Output**

- Success/failure notification of feedback reply to users.
- Success/failure notification of delete feedback.
- Success/failure notification of updates for review.
- Success/failure notification of add/change/delete type of event, place, concept...

THANK YOU VERY MUCH!

We would like to send a big thank to professor Nhan and other student for support us as much as they can during the time.

Beside serveral mistakes we had made in the project, we hope to have more oppotunities to widen our knowledge in web developing world.

We also thank you so much for your infomation and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning anything as much as we can to be more successful in the future.

Your sincerely,

Team Group 1

Leader: Nguyễn Trần Lê Hạc

Member: Phùng Bửu Nghi
